

## JUST SANDWICHES

Sandwiches have likely been a dietary mainstay of your life. Likewise, most of you have had some experience with eating in a restaurant. This activity will ask you to design sandwiches for all meals, courses, and occasions.

"Owning a restaurant has been your lifelong dream -- which is about to come true! Realizing that your spot will have to be special to survive amongst the competition, you hit on an idea that will set your eatery apart – JUST SANDWICHES! Regardless of the course, from appetizers, salad, entrée, main course to desserts, each dish will be in sandwich form. It's time to begin dreaming up each tasty treat . . ."

List many, different, and unusual sandwich creations. Basic ingredients should be identified for each idea.

In your group brainstorm sandwich creations.

Each person should share his or her ideas with the group. Ideas will then be categorized.

Each group will develop a detailed, illustrated menu entry for one of the favorite sandwiches.

Your table can select a theme for their sandwich shop. It could be based on a movie, book, short story, video game or sport. Create a menu 'brochure' for your shop. Make sure you name your sandwich shop.
