

Big
with green,
huge ,sometimes
skinny branches.
smells so fresh with its pine scent.
Used for Christmas
decorations and storage for
presents. Looks beautiful
when decorated with ornaments
and lights. As soon as you see it, you'll
immediately feel the Christmas spirit. Christmas
trees are wonderful because they remind people of what Christ
mas is all about. The meaning of it is as
as follows: the art of appreciating your frie
ends and family for loving and caring about you,
receiving and giving presents to the people you love, the w
eek or so spent out of school because of the holiday, and the c
elebration of the birth of Christ. Maybe this isn't how you feel
about these beautiful pines, but that's my opinion about them. One more
thing about Christmas trees are that they are a representative of for the most lovely

time
of
year
