

Track

I love to run track
I run for the Eagles
We got to regional
even nationals
I mostly do relays
It be so hot

It's a lot of fun at regional
It don't be that hot
but only at nationals
My little sister hates track
My mom loves the relays

Last year I didn't make it to nationals
My team and I didn't do so well in the relays
but I still love track
I was happy I made it to regional
I was sick because it was hot
but my team supported me, that's why I love the Eagles

It stop being hot
at the last month of track
I watched some of the other relays
My team are winners that's why I'm with the Eagles
I didn't go with my cousin to nationals
Only to regional

My cousin runs relays
She always goes to regional
She runs with the Eagles
She thinks it also hot
She enjoys track
She always got to nationals

The best team is really the Eagles
Someone always go to nationals
It really be hot
specially when you do relays
but not so hot at regional
That's why I love track

I started track three years ago for the Eagles
I went to regional and nationals
It really be hot only on relays
